4-CH Network Video Recorder

The NVR-400 provides smart setup wizard program for users to easily setup this device step by step. It also supports web-base management interface for administrator to remotely manage the device via web browser without any concern. This state-of-art design is considerable to fit in various network environments.

The PLANET brand new Network Video Recorder - NVR-400 brings you a simple, efficient and cost-effective surveillance system. Users can just turn on cameras and the NVR-400 to protect their family and property easily. There is no need of using the PC to save the video files from IP cameras when applied the NVR-400 in your security surveillance system.

The NVR-400 supports 4-Channel IP camera input via networking. The recorded surveillance pictures are stored in AVI video file format, therefore users can use any media player medium such as Windows Media Player to play the recorded image files without any additional playback program.
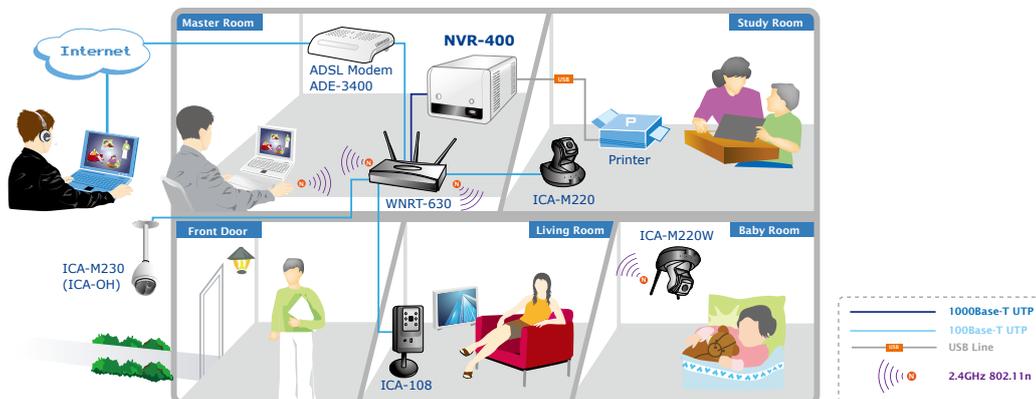

Supporting two SATA HDD trays, the NVR-400 can work with RAID 0 to increase the HDD space or RAID 1 for real-time backup recorded data. Besides the NVR function, the NVR-400 provides simple NAS function for users to read / write data, download BT or apply FTP service. The NVR-400 can also be the print server that enables you to share the connected printer to your network users.

KEY FEATURES

- Simultaneous Record and Live Video Streams

- Manual or Schedule Recording of 4 IP Cameras simultaneously

- Web-based Administration for Easy Configuration

- Provides FTP, UPnP Media, iTunes Server

- 2 USB Ports for External Backup and Printer

- Supports RAID 0, 1 and JBOD

- Gigabit Ethernet Port

- Multiple Languages support

- Firmware Upgradable

APPLICATIONS

SPECIFICATION

Product	4-CH Network Video Recorder
Model	NVR-400
General	
OS	Embedded Linux
Ethernet	1 x RJ-45, 10/100/1000 Base-TX
USB Interface	2 x USB2.0 for backup device and printer
Storage Device	2 x 3.5" SATA hard disk
Button	Shut down button, Unmount button, Reset button
LED Display	1 x LAN, 2 x HDD, 2 x USB
HDD Configuration	Standard, RAID 0, 1 and JBOD
Video Input	4 channels IP camera
Recording Mode	Manual, Schedule
Network Service	TCP/IP, DHCP, DNS, HTTP, FTP, NTP, SMTP, UPnP
Network File Protocol	Microsoft Networks (CIFS/SMB), Internet (HTTP), FTP
Management	Web-based administration Network Time Protocol Multiple users account E-mail notification System log Firmware upgrade
File System Type	Internal HDD support: XFS External USB drive support: FAT32 / EXT3
User Interface	IE browser IPFinder utility
Multiple Language	Yes
Power	12V DC, 4.0A / Max. 36W
Operating Temperature	0~50 Degree C
Weight	1.73 kg
Dimension (W x D x H)	134 x 201 x 105 mm

ORDERING INFORMATION

NVR-400	4-CH Network Video Recorder
